Tools & Platforms: **Git, GitHub, VS Code, Jupyter Notebook, MySQL, Power BI**
Other Skills: **Dashboard Creation, Report Generation, Business Insights, Problem Solving, Communication Skills**

Work Experience

Data Analyst

Career us solution | Pune Apr 2024 - Present

- Collected, cleaned, and analyzed large datasets using **SQL, Excel, and Python** to derive actionable insights
- Created interactive dashboards and reports using **Power BI / Tableau** to track KPIs and business performance
- Performed data validation and preprocessing to improve data accuracy by **100%**
- Wrote complex SQL queries (joins, subqueries, CTEs) to extract and manipulate data
- Conducted exploratory data analysis (EDA) to identify trends, patterns, and anomalies
- Collaborated with cross-functional teams to understand business requirements and deliver insights
- Built predictive models using Python libraries like Pandas, NumPy, and Scikit-learn
- Designed data visualizations to communicate insights effectively to stakeholders
- Monitored key metrics and provided recommendations to improve business outcomes

Web Developer

Zedio Development | Bangalore Jan 2024 - Apr 2024

- Developed and maintained responsive websites and web applications using HTML5, CSS3, JavaScript, and React.js.
- Collaborated with UX/UI designers to implement modern designs, improving user experience and interface usability.
- Built and consumed RESTful APIs, integrating front-end interfaces with back-end services using Node.js and Express.

Education

B-TECH | CGPA - 9.33 2023
NB Navale Sinhgad College of Engineering, Solapur

12th 2019
C. B. Khedagi's Junior College, Solapur

10th | Percent - 84.80 2017
Shri S. S. Shelake Prashala, Solapur

Achievements

Secured 'A' Grade in Elementary and Intermediate examinations. Winner of Project Presentation competition at institute level. Selected for Smart India Hackathon at the collegiate level. Won first prize for best presentation on Tourist Guide Application.

Project Experience

Education Content Website

Designed and developed a web platform aggregating educational resources such as videos, notes, quizzes, and assignments. Implemented role-based access for students, teachers, and administrators with secure authentication. Integrated video streaming, document uploads, and interactive quizzes.

Sales Performance Dashboard

- Developed an interactive Sales Performance Dashboard using Power BI/Tableau to monitor sales trends, revenue growth, and monthly targets.
- Analyzed key performance indicators (KPIs) such as total sales, profit margin, customer growth, and regional performance.
- Created automated reports and visual dashboards to support real-time business decision-making.
- Used SQL and Excel for data extraction, cleaning, and transformation from multiple data sources.
- Identified sales patterns, top-performing products, and underperforming regions to improve strategy planning.
- Provided actionable insights to management that helped increase sales performance and business growth.
